BASE REALIGNMENT AND CLOSURE (BRAC) 93
ARMY OVERVIEW

The Army is executing the recommendations as described in the Defense Base Realignment and Closure Commission's Report to the President. The following are general points related to the information arrayed in this budget submission:

- This budget does not reflect military end strength savings since those savings are accounted for in the Army's end strength reductions.

- Dollar savings reflected in this budget represent the savings resulting from BRAC 93 that were not taken in previous budget adjustments. The savings listed herein were used to offset high priority unfunded issues in the Army's future year programs and are not available for subsequent program adjustments. MILCON savings include projects appropriated and subsequently rescinded by the Congress as a result of BRAC 93 recommendations.

- Funding for BRAC 93 environmental restoration is programmed and budgeted in the BRAC III Base Closure Account (BCA). BRAC 93 environmental restoration action plans include all BCA-funded environmental restoration projects at Vint Hill Farms Station, Tooele Army Depot, and Fort Monmouth. The Army implemented the fast track clean-up at all BRAC 93 installations by establishing Restoration Advisory Boards (RABs) and completing Community Environmental Response Facilitation Act (CERFA) reports.

I. Fiscal Year 1994: The initial implementation year was funded at \$36.4 million to initiate planning and design for all BRAC 93 construction projects and award the construction project at Letterkenny Army Depot in support of missile maintenance consolidation. The Army also initiated enhanced preliminary assessments at all closure and realignment installations, and began National Environmental Policy Act (NEPA) analyses to support planned unit moves.

A. MAJOR EVENTS SCHEDULE.

1. Construction. Awarded construction contracts at Letterkenny Army Depot, PA for missile maintenance consolidation. Initiated planning and design for all other BRAC 93 construction projects.

2. Moves. Major actions included:

- a. Initiated moving the tri-service missile maintenance functions to Letterkenny Army Depot, PA.

BASE REALIGNMENT AND CLOSURE

(Continued)

b. Initiated moving, by system, depot maintenance mission (less topographical workload) from Tooele Army Depot, UT, to Red River Army Depot, TX.

c. Keeping Headquarters Sixth U.S. Army at the Presidio of San Francisco, CA rather than moving to Ft Carson as recommended by the BRAC 88 Commission. (NOTE: Subsequent HQDA force reduction action deactivated HQ, Sixth Army.)

d. Retaining the U.S. Army Armament, Munitions, and Chemical Command (AMCCOM) materiel management functions at Rock Island Arsenal, IL rather than move to Redstone Arsenal, AL as recommended by the BRAC 91 Commission.

e. Initiated moving Headquarters Communications-Electronics Command (CECOM) from leased space to Fort Monmouth main post.

B. BASE CLOSURE ACCOUNT BUDGET REQUEST. \$36.4 million.

C. MISSION IMPACTS. No adverse impacts.

D. CONJUNCTIVELY FUNDED PROJECTS. None.

II. Fiscal Year 1995:

C. MISSION IMPACTS. No adverse impacts.

D. CONJUNCTIVELY FUNDED PROJECTS. None.

III. Fiscal Year 1996:

A. MAJOR EVENTS SCHEDULE.

1. Construction. The majority of the BRAC 93 construction projects are under way in FY 96. The BRAC 93 projects scheduled for award are at Fort Belvoir, Rock Island, and Redstone Arsenal.

PACKAGE DESCRIPTION**

Army/Location/Package: Army/Pennsylvania, Alabama, California, Texas, Utah, Virginia /Letterkenny Army Depot

Realignment Package: Letterkenny Army Depot (LEAD) will remain open. Consolidate the tri-service tactical missile maintenance at the depot as originally planned by the DOD Tactical Missile Maintenance Consolidation (TMMC) Plan for Letterkenny Army Depot (dated 31 JAN 92 and revised on 30 APR 1992). Realign the tactical-missile maintenance workload from the Marine Corps Logistics Base, Barstow, CA to LEAD. Retain artillery workload at LEAD along with the conventional ammunition storage mission and the TMDE mission. Retain the Systems Integration Management Activity-East (SIMA-East) at LEAD until the Defense Information Systems Agency completes its review of activities relocated under Defense Management Review Decision (DMRD) 918. [NOTE: This is a change to the 1991 Commission recommendation. The DMRD initiative was never executed; therefore, SIMA-East will remain at LEAD.] Additionally, the Major Item Information Center (MIIC), with functions separate and distinct from the SIMA-E mission, officially split from SIMA-E in October 93. The MIIC relocated to Redstone Arsenal, AL, in FY96 and is co-located with its parent organization, Logistics Support Activity (LOGSA). (NOTE: Letterkenny Army Depot is also impacted by the BRAC 95 realignment.)

Part of the move is made necessary by the Defense Authorizations Amendments and Base Closure and Realignment Act of 1993, which closes the Naval Training Center at Orlando, Florida by 1999 and eliminates all mission and personnel support for the MIBN(LI) at that location. The other part of the move is due to the Treaty Implementation Plan which relocates activities of the MIBN(LI) from Panama. <u>CURRENT SITUATION:</u> Battalion and company level command, operations and support functions for the MIBN(LI) are currently housed in facilities at the Naval Training Center in Orlando, Florida, and in Panama. All of these currently used facilities are due to close by 1999 in accordance with Public Law 101-510, as amended, and the Treaty Implementation Plan for Panama. The move of the MIBN(LI) activities to Fort Bliss represents a new mission for the installation. The hangar facility proposed for use by the MIBN(LI) is plagued with problems due to obsolete and failing electrical and HVAC systems and disrepair of the plumbing, lighting and fire suppression systems which must all be renovated to support this new mission. <u>IMPACT IF NOT PROVIDED:</u> If this project is not provided, the MIBN(LI) will not have adequate facilities from which to operate, train, and maintain their various aircraft. The lack of an adequate facility will adversely affect the command, control, training, and readiness of the battalion, and the security and accountability of sensitive equipment assigned to the battalion, thereby degrading the unit's tactical intelligence capability and world-wide deployability. <u>ADDITIONAL:</u> This project has been coordinated with the installation physical security plan and required security improvements and/or combating terrorism (CBT/T) measures are included. This project complies with the scope and design</p>			<u>Item</u>	<u>U/M</u>	<u>QTY</u>	<u>Unit COST</u>	<u>Cost (\$000)</u>	<u>PRIMARY FACILITY (CONTINUED)</u>					Handicap Access	m2	3,716	5.38	(20)	Building Information Systems	LS	--	--	(178)				Total	198
